## Wheelz

### Description

You want to buy a new set of wheels, but you're not sure which ones compliment your car the most. Wheelz allows you to quickly choose the right style before you make that pricey investment.

Simply take a picture of the side of your car or truck. Then visualize it with new rims and spinners. Save your favorite snapshots or share the picture with your friends.

Wheelz features 60 rims including a collection of 15 spinners. Just shake your iPhone to make 'em spin.

You get a wide range of styles from aluminum, to stylish chrome, 100-spoke, and spinners. It's a quick and easy way to see your ride dressed in different shoes.

"They spinnin, man. They spinnin"
